

## TUTORIALPYTHON7

The screenshot shows the Visual Studio Code editor with a Python file named `kodinganketujuh.py`. The code is as follows:

```
1 #Membaca CSV
2 import csv
3
4 with open("user.csv", "r") as users:
5     users_csv = csv.reader(users, delimiter=",")
6
7     for row in users_csv:
8         print(row)
9
10 print("="*20)
11
12 #With Block
13 import csv
14
15 with open("user.csv", "r") as users:
16     users_csv = csv.reader(users, delimiter=",")
17
18     for row in users_csv:
19         print(row)
20
21 print("="*20)
22
23 #Module
24 from unittest import result
25 from module.mtk import plus, minus
26
27 result = plus(12, 8)
28 print(result)
29
30 result = minus(12, 8)
31 print(result)
32
33 print("="*20)
```

The status bar at the bottom indicates the file is at line 3, column 1, using UTF-8 encoding with CRLF line endings. The Python interpreter is set to 3.10.7 64-bit.

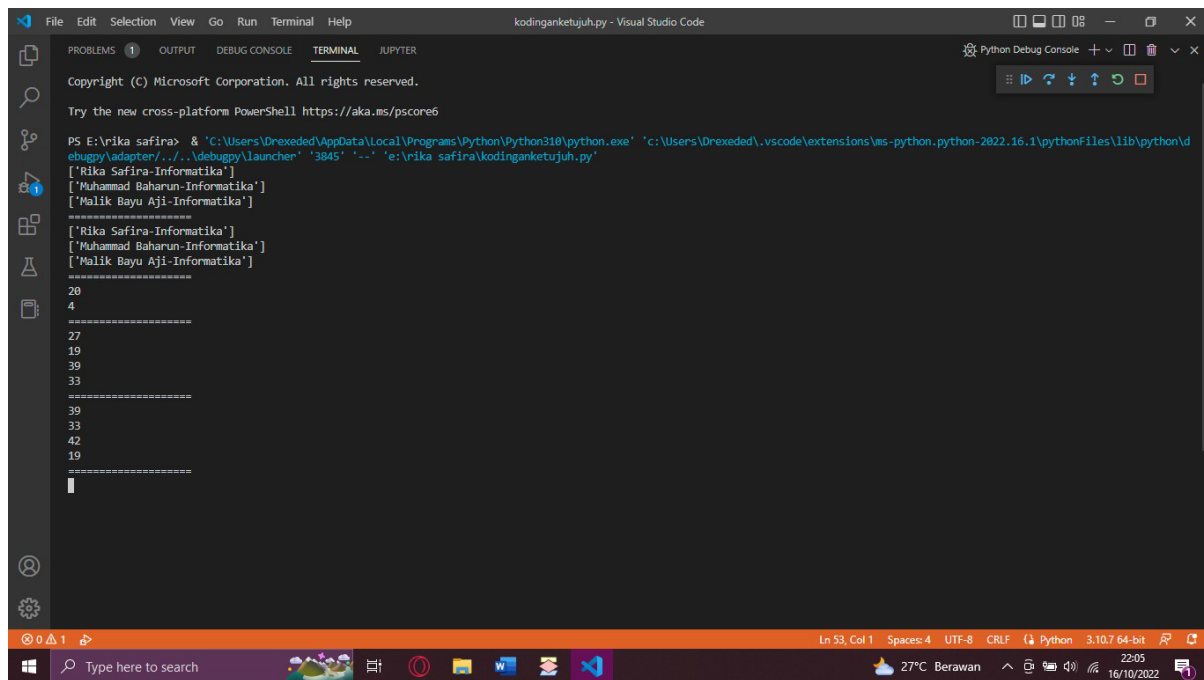

The screenshot shows the Visual Studio Code editor with the same Python file `kodinganketujuh.py`. The code continues from the previous screenshot:

```
34
35 #Package
36 import random
37
38 for index in range(4):
39     print(random.randint(12, 45))
40
41 print("="*20)
42
43 #Random
44 import random
45
46 for index in range(4):
47     print(random.randint(12, 45))
48
49 print("="*20)
50
51 #PIP dan Virtualenv
52 import cowsay
53
54 cowsay.cow("Senang Belajar Python")
```

The status bar at the bottom indicates the file is at line 53, column 1, using UTF-8 encoding with CRLF line endings. The Python interpreter is set to 3.10.7 64-bit.

## Hasildarisourcecodediatas

The screenshot shows a Visual Studio Code window with a terminal open. The terminal title is 'kodinganketujuh.py - Visual Studio Code'. The terminal content is as follows:
